You probably will not. John sent that e-mail to me this morning. I have tried to explain that we are not going to put his 'name' on a permanent sign, but I don't think he is going to accept that from me. It is probably going to have to come from someone with more authority than me.

Laura. We have included all of these folks during the signage development. My suggestion is that I discuss a strategy with Nancy as to how and communicate and get back to you. Please keep us up to date on any additional emails and we will get back to you. I didn't hear a thing from anyone in Johns office...yet.

Laura,

Let's face it the directional signs here are terrible. I suggest the elected officials get together and decide how we want any new signs installed.

I just spoke to Laura about this. They wanted to redo these signs but without your name on them. These would replace what's out there now. The different material can handle being outside. I told her that we would not approve the change, but I would talk to you.

Attached is the proofs for the signage for the aluminum stands.
Please approve and I will order.
Thank you,

Laura,

Attached you will find a layout and price for the interior signs for the Howard School Building. Let me know if you would like to proceed.

Thanks,

Keith Orser
